Calls for 3IA affiliate chairs 2021

Hosted by Université Côte d'Azur, the 3IA Côte d'Azur brings together the site's main players in artificial intelligence, CNRS, Inria, Inserm, Eurecom, Mines ParisTech and Skema Business School around four scientific axes: fundamental artificial intelligence (statistics, statistical learning and deep learning); artificial intelligence at the service of computational medicine; AI at the service of computational biology and bio-inspired AI; and finally AI for intelligent and secure territories.

The 3IA Côte d'Azur is launching its second call for applications for 3IA affiliate chairs.
Affiliate Chairs are awarded by 3IA Côte d'Azur for three years (renewable) and are necessarily proposed by a 3IA chairholder to contribute to its own research project, with the aim of generating collaborations between 3IA and the company. An affiliate Chair is a researcher working in a private company, dedicating a part of his/her time to the 3IA – typically 10% or 20% – and co-supervising PhD students, giving lectures and having access to the research laboratories.

The application -to be sent by the corresponding 3IA chairholder to 3ia@univ-cotedazur.fr before the deadline indicated in the calendar - will include:

- curriculum vitæ (max. 5 pages using 10 pt fonts and standard A4 margins),
- research project (max. 2 pages using 10 pt font and standard A4 margins), indicating contribution to 3IA Côte d'Azur research axis,
- commitment letter from the candidate mentioning that the candidate will dedicate between 10% and 20% of his time to the 3IA Côte d'Azur,
- commitment letter from the candidate employer supporting the application.
